

# VICTORIA REIS

## FRONTEND DEVELOPER

---

### PROFILE

Frontend Developer with experience building responsive web and mobile applications. Proven ability to collaborate effectively with a cross-functional team. Excited for both professional growth and software development, I attended a 300+ hour coding bootcamp to learn front-end languages and frameworks while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

### SKILLS

- HTML and CSS
- SASS and Tailwind
- JavaScript
- React
- Redux
- React Native
- Rest APIs
- Firebase
- Git and GitHub
- React Testing Library
- WCAG Standards
- Agile Software Development
- Communication
- Adaptability
- Problem Solving
- Attention to Detail

### EXPERIENCE

#### 3sHealth — AIMS Support

October 2022 - November 2022

- Assisted healthcare workers across Saskatchewan through Service Now
- Supported transition from 82 legacy systems to AIMS (Administrative Information Management System)

#### Co.Lab/Cope — Frontend Software Developer

June 2022 - September 2022

- Built mobile application using React Native
- Reproduced UI/UX mockups using Styled Components as well as Figma and Zeplin
- Collaborated with cross-functional team to develop high-quality, user-friendly application
- Agile environment
- Cope is the outcome of Co.Lab (eight-week apprenticeship) [www.joincolab.io/projects/cope](http://www.joincolab.io/projects/cope)
